

# Kaufold's Country Sheds & Gazebos

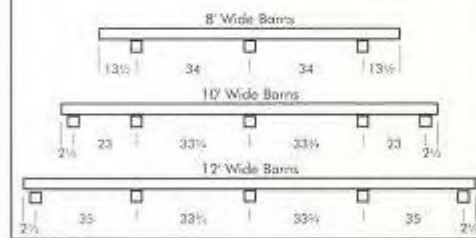

## Standard Construction & Features

\*Duratemp® is genuine plywood siding but unlike ordinary plywood, Duratemp® has a tough, natural looking surface of oil-tempered hardboard. It will not split, check or crack like veneer products. Duratemp's® face is always 100% clear and free of patches and repairs. It is tough enough to resist dents and damage, resist weather and temperature and keeps its paint up to twice as long as regular siding. Warranted for 25 years.

\*\*The Mini Barn and High Side Barn feature full 2x4 sill plates on three sides.

### Pressure Treated Foundation Beams

All buildings are fully assembled and delivered to your prepared site.

### Shingle Color Options

### Paint Color Options for T-1-11
