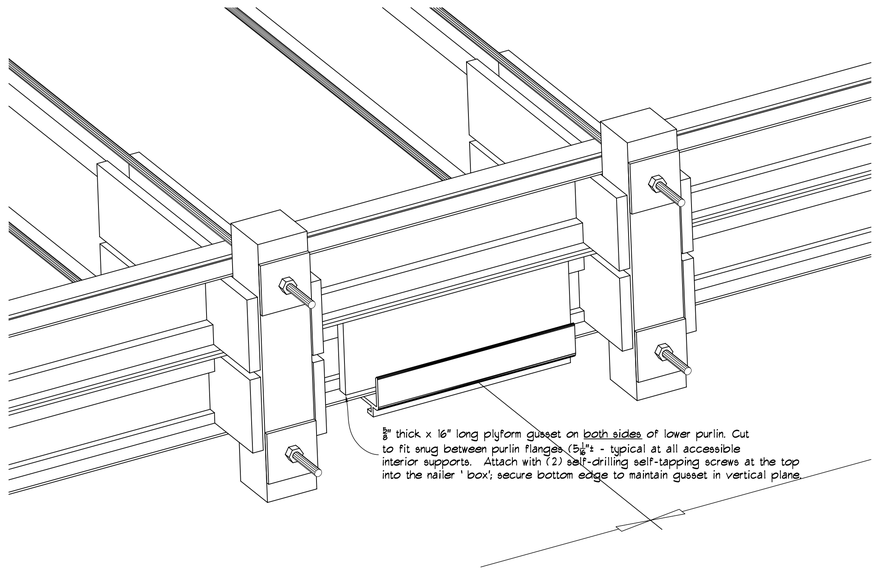
1/4"ø x 9'-6" Coil rod top & bottom with 3" x 3" plate washer & coil nut each end. Install snug-tight, but do not over-tighten.
3/8" x 16" ply gusset. Height to suit clear space between purlin flanges (5 1/16"±). Cut one end to match shape of purlin. Attach to 2x8 w/ring-shank nails.
2x8 X 7'-8" Strut
FIELD NOTE:
Be sure that stacked purlins are plumb and properly spaced before installing the 2x8 struts.
Shoring head
Ply gussets cut the same as interior gussets (only shorter)
4x4 with holes for coil rod or
Dbl 2x4 X 18" w/3/4" ply spacer
3/4" thick x 16" long plyform gusset - typical at all accessible interior supports. See Detail below.



3/8" thick x 16" long plyform gusset on both sides of lower purlin. Cut to fit snug between purlin flanges (5 1/16"± - typical at all accessible interior supports. Attach with (2) self-drilling self-tapping screws at the top into the nailer 'box'; secure bottom edge to maintain gusset in vertical plane.
