

# Measurements with larger size motor

No modulation as seen in TWF, but spectrum shows 1.1Hz sideband ( may be low modulation index, hence not seen in TWF. Not audible as well)

Lobe mesh order	1.0	2.0	3.0	4.0	5.0	6.0
Freq(Hz)	98.7	197.4	296.1	394.8	493.5	592.2

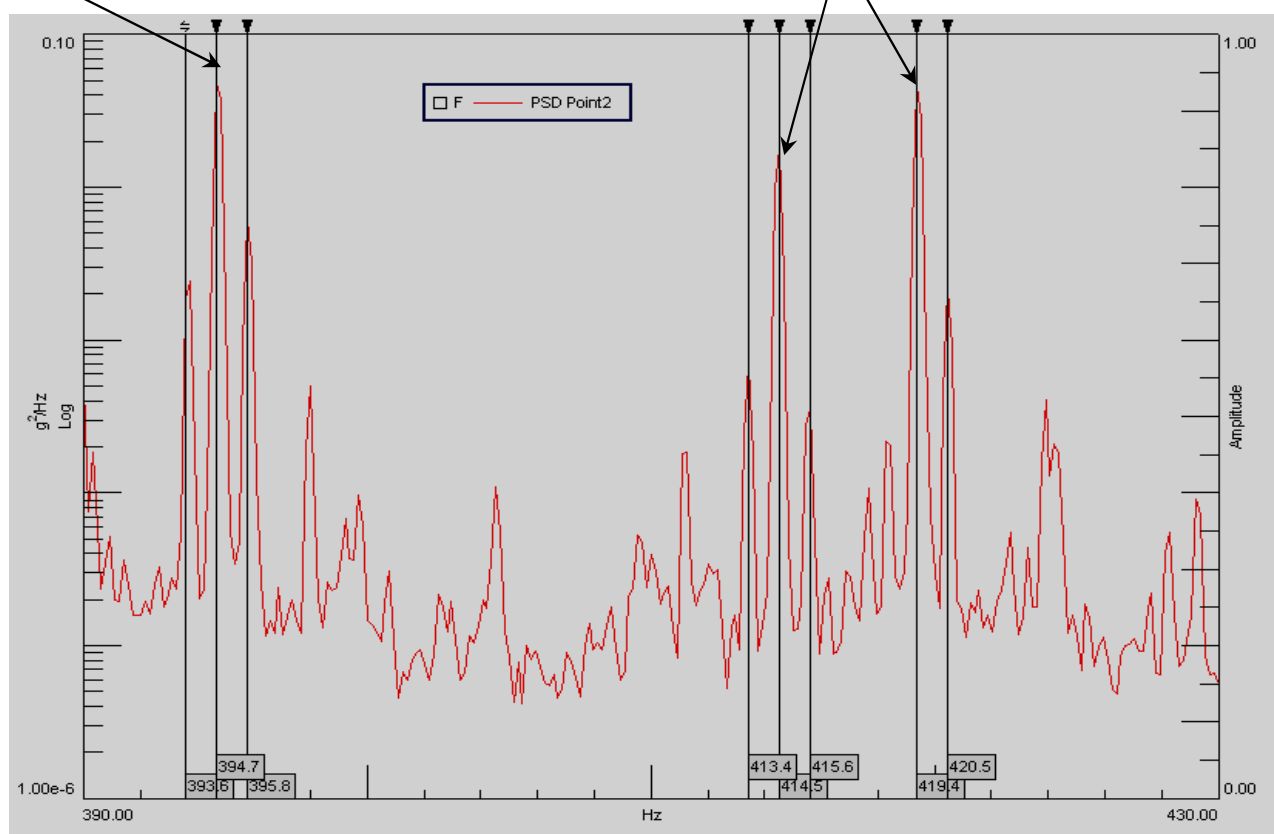

LMF(order-3) with sidebands of 1.1Hz

Ghost frequencies

LMF(order-4) with sidebands of 1.1Hz

Ghost frequencies with 1.1Hz sidebands!

# Typical Sound pressure data (with original motor)
