

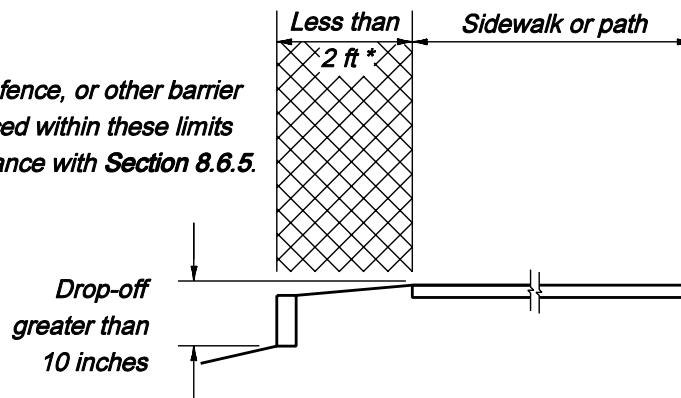

**Figure 8.2 Drop-Off Hazards for Pedestrians and Bicyclists**

### **CASE I**

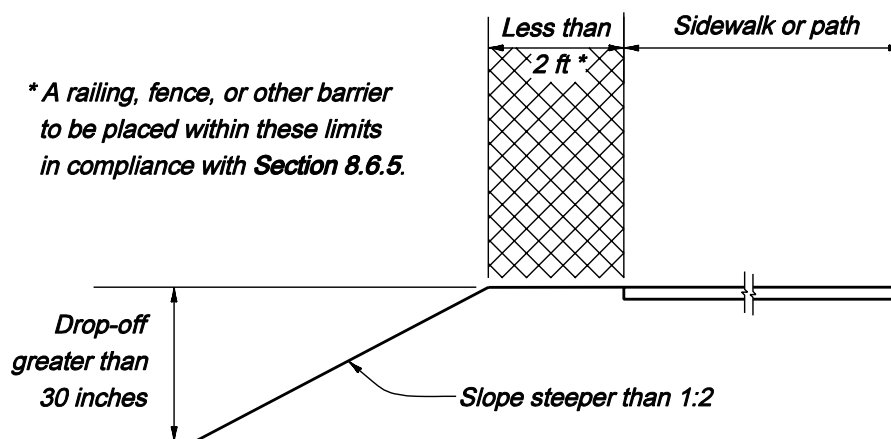

*\* A railing, fence, or other barrier to be placed within these limits in compliance with Section 8.6.5.*

*A drop-off greater than 10 inches that is closer than 2 feet from the pedestrians' or bicyclists' pathway or edge of sidewalk should be considered a hazard and shielded.*

### **CASE II**

*\* A railing, fence, or other barrier to be placed within these limits in compliance with Section 8.6.5.*

*A slope steeper than 1:2 that begins closer than 2 feet from the pedestrians' or bicyclists' pathway or edge of sidewalk should be considered a hazard and shielded when the total drop-off is greater than 30 inches.*
