BUILDING AREA
SEE SHEET A-2.1

CAN THE SHEAR FORCE OF AREA #1 GO TO LINES 2 AND 3. AREA 1 IS A DECK WITH A ROOF ABOVE. THIS IS WHERE I WAS WONDERING IF I COULD JUST SEND THE FORCE FROM THIS AREA TO LINES 2 AND 3, OR WOULD I HAVE TO LOOK AT THIS ANOTHER WAY FOR BEING AN ATTACHED DECK, AND ROOF LEDGERING ON A HIGHER WALL.

CAN THE SHEAR FORCE OF AREA #2 GO TO LINES 7 OR 8. AREA 2 IS A HIGH FLAT ROOF. THE WALL OF THE POWDER ROOM ON LINE 8 IS NOT CONTINUOUS TO THE ROOF.
