Internal and External Dovetail Guide

Page 1
January, 2008

This dovetail dimensioning guide is not found in any current drafting standard. However it appeared in MIL-STD-8-1949 and subsequently was found in the GD&T Standard (Y14.5) through the 1966 version. It has not been included in any subsequent GD&T Standard revisions. However, engineers and drafting professionals may find it useful. This example is in accordance with the ASME Y14.5M-1994 Standard.
