Subject: RE: 15711-FIU-UCPP - Rebar Inspection - South Bent

Rodrigo,

As you know, on projects governed by FDOT's Standard Specifications, the Contractor is responsible to ensure all materials and workmanship incorporated into the project meet the requirements of the Contract Documents.

As the CEI for this project, yesterday we inspected the South Bent and we can confirm the re-bar and formwork has been constructed in substantial compliance with the plans as provided by the engineer of record for this project.

We will establish an inspection process with the FIU building Department that might take care of future requests regarding this requirement from the FIU permit.

Thanks,

Jose E. Morales, PE
Sr. Project Engineer

Jose,

Following today's inspection please provide written confirmation that the inspection passed for our records and as required by FIU's permit.

Thank you
