Trunk Calling Party Number

1	<input type="text"/>
2	<input type="text"/>
3	<input type="text"/>
4	<input type="text"/>
5	<input type="text"/>
6	<input type="text"/>
7	<input type="text"/>
8	<input type="text"/>

Use Program 21-12: ISDN Calling Party Number Setup for Trunks to assign Calling Party Numbers for each trunk (maximum 16 digits per entry). When a call is made by an extension which does not have an Extension Calling Number assigned (Program 21-13), the system sends the calling number for the ISDN trunk defined in 21-12.

If the Calling Party Number is assigned in both Programs 21-12 and 21-13, the system sends the data in Program 21-13.
